4/20/2022	Past Event	60 mins	Best Practices (CMS)	Developing, Testing and Maintaining Internal Controls Framework	In this session we will further expand our work with risk assessments and delve more deeply into internal controls, otherwise known as those things you do to mitigate a particular risk. Creating a risk assessment at the internal control level allows your company to quickly identify which controls are most critical so that you can create a risk-based internal control testing program and schedule. The primary purpose of self-testing internal controls on a regular basis is to provide your company with the opportunity to self-detect and self-correct when controls are inadequate or fail. A properly documented internal control testing program helps to support your company in demonstrating a culture of compliance.	Marsha Jones President TPPPA	Member Only	Y
5/4/2022	Recording Link	60 mins	Best Practices (CMS)	Policies and Procedures and Their Functions and How they Differ	In this session we will discover the different functions and purpose of Policies versus Procedures. Policies are directives of the Board that are designed to implement controls to mitigate the risks to the organizations payment processing program. Procedures are the instructions for implementing the board policies at a functional level. Both policies and procedures must be documented, approved by the board (policies) or management (procedures) and must be acknowledged by employees as they are implemented and updated. Employees should be trained on policies and procedures on a regular basis. Changes to policies and procedures must be tracked by version control and copies of previous policies and procedures should be archived for future review. These concepts and more will be explored in this session.	Marsha Jones President TPPPA	https://attendee.gotowebinar.com/recording/125047880258905871	Y
5/18/2022	Past Event	60 mins	Best Practices (CMS)	Board Reporting and Oversight	In this session we will discuss the function of the Board of Directors in your organizations payment processing program. The Board is responsible for oversight of your program. The Board may designate day-to-day management responsibilities to senior management, but the Board must be able to demonstrate competent and regular oversight of the program. This is accomplished through the periodic board reporting on the program. This session will discuss the responsibilities of the Board and the reporting requirements expected by bank regulators. This session applies to both bank boards and boards of the payment processor.	Marsha Jones President TPPPA	Member Only	Y
